

Portable Radio Guide

BPR40

**8 Channel -
1 Year Warranty**

A great entry-level radio for school environments. Small and lightweight with clear audio and full 4-watt transmit power. Perfect for staff who need a simple, reliable push-to-talk device without complex features.

TP2

**16 Channel -
1 Year Warranty**

A rugged, slim-profile radio with dual analog/digital modes — great for schools planning a future migration to digital. Features user-defined voice announcements for added accessibility.

CP100d

**16 - 160 Channel -
3 Year Warranty**

Simple, practical, and cost-effective for the light user. The CP100D's wide channel range gives you flexibility as your school's needs grow. Easy to use with no learning curve.

XPR3500

**120 Channel -
5 Year Warranty**

The top-of-the-line option for demanding environments. Digital capability delivers enhanced coverage, superior audio quality, and private call features. IMPRES smart battery technology extends battery life.
